Access Number:

This number is made up of the Credit Union's transit number which is "14332" followed by a 7 digit member number. If the member's number is less than 7 digits then the number should be padded with zeros on the left to make it 7 digits.

For example if your account number is 1234 then you would type in 143320001234

PIN:

The PIN is between 5-8 digits and is assigned by Slovenia Credit Union.

Changing Your PIN:

You can change your PIN anytime and as often as you like. If you are a new user you should change your PIN to something that you will remember. You can do this by clicking on the Bank Setup button. Enter your current PIN and then your new PIN (you will be asked to enter the new PIN twice to confirm), then click the GO button.

Setting Your Primary Account:

Your Primary Account needs to be set in order to make online bill payments. The Primary Account will be the account where funds will be drawn from to make bill payments. To set the Primary account, go to the Bank Setup screen and select an account for your preferred Primary Account from the list and click the GO button.

System Requirements:

In order to use the online banking system your computer must meet the following requirements:

- Have Java script enabled on their browser
- Have "Cookies" turned on
- Use a browser that supports 128 bit encryption. Most popular browsers support this encryption level.
